Last Name: Person
Address: 701 Los Moon

Submitting Data

- Every form page has an add or submit button on the bottom left

- The add/submit button must be clicked to send info to the database

- Think of this like filling your gas tank
  - To make gas flow into the tank you have to hold the lever in the handle.
  - To enter data you have to click the submit button.

Required Data

- Required fields have a light yellow background. If you don't fill these in, you will get a message to do so

- If you don't fill in required data fields, you will get an error message telling you what is missing

Pedigree

- Pedigrees are created offline so it can be several weeks before they are posted

- Once a pedigree is posted, the owner is notified by email.

- Coefficient of inbreeding is calculated for 10 generations.

SESSION TIME OUT

Session Timeout

Your session has timed out on the server and you have been automatically logged off. This is most likely due to inactivity. Unfortunately this is necessary when there can be large numbers of people accessing a database. Thank you for your understanding.

You will need to logon again to access the BeaCon Open Health Registry Database. Click on the button here to go to the logon page.

Click Here to Go To The Logon Page

Gather information needed before you begin. If there is no activity for 20 minutes the session times out and you will have to log in again.
